

INDEX TO VOLUME 17

The star (*) preceding the page number indicates an original article in THE ARCHIVES. No author entries are made except for original articles. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

	PAGE
Abscess, cold, in Pott's disease, with paraplegia	130
Acidosis, preparoxysmal vessel changes following experimentally produced hyperventilation in dog.....	546
Alcohol, effect of moderate doses of, on growth and behavior of rat.....	125
Ameba, structure, movement, locomotion and stimulation in.....	395
Ammonia, biochemic factor of autointoxication in causation of hysteria.....	267
manic-depressive psychoses in which no ammoniac autointoxication is found.....	268
Anaphylaxis, protein sensitization in epilepsy; study of 1,000 cases and 100 normal controls	*427
Aneurysm, cerebral, associated with congenital stenosis of isthmus of aorta, with rupture.....	*303
intracranial; case	830
of internal carotid simulating cerebral tumor	131
of posterior communicating artery; case.....	*770
Anthropometry, minimum scheme for study of morphologic constitution in psychiatry; anthropometric technic.....	*93
Aorta, neurologic complications associated with congenital stenosis of isthmus of; cerebral aneurysm with rupture and intermittent lameness	*303
Arachnoiditis, adhesive spinal, simulating spinal cord tumor.....	*151
Arsphenamine reactions, alleged stimulation of autonomic nervous system in.....	682
Arteriosclerosis, gynecomastia with arteriosclerotic dementia; softening of striatum without choreo-athetotic symptoms in pseudobulbar palsy.....	841
increased blood pressure and; experimental production	543
regional distribution of arteriosclerotic changes in brain.....	544
striate-like disease of cortex in.....	107
Artery, internal carotid, technic for obtaining blood from.....	*807
Ataxia, Friedreich's; clinical and postmortem study of 2 cases in brothers.....	*28
Athetosis, persistent choreo-athetosis, following electric shock.....	127
Atrophy, unilateral, of hand; 2 cases.....	555
Atropine, in local cooling tests in normal persons	270
orthostasis and intravenous injection of..	272
Aub, J. C.: Lead studies; experimental studies of lead palsy.....	*444
Babinski Sign: See Reflexes, plantar	
Barrett, T. M.: Friedreich's ataxia; clinical and postmortem study of 2 cases in brothers at different stages of disease	*28

"Bayer 205": See Sclerosis, multiple	
Behavior, comparative method for demonstration of normal development in infancy	122
development of motility and behavior reactions in toadfish (Opsanus Tau)....	537
studies in animal aggregations; causes and effects of bunching in land isopods	124
Bismuth: See Tabes Dorsalis	
Bladder, neuromuscular dysfunction of, as cause of chronic pyelitis in childhood.	689
Blood, metabolism in manic and depressive states; changes in calcium and potassium content of whole blood.....	828
pressure, increased, and arteriosclerosis; experimental production	543
pressure, pathogenesis of hypertension; new theory	682
sugar, hyoscine in postencephalitis lethargica	398
sugar, hypoglycemia and convulsions....	121
sugar, in encephalitis lethargica (epidemic encephalitis)	400
sugar, nervous symptoms of insulin hypoglycemia in rabbits contrasted with convulsions induced by cocaine.....	119
sugar, physiologic ideas on vagotonia (pancreas and vagal tonus).....	271
Bones, lesions, 3 tumors arising from neuroblasts	265
osteoporosis, associated with multiple neurofibromas, true angioneurofibroma of acoustic nerve and Jacksonian epilepsy	395

BOOK REVIEWS:

A Classification of the Tumors of the Glioma Group on a Histogenetic Basis with a Correlated Study of Prognosis; P. Bailey and H. Cushing.....	570
Aviation Medicine; L. H. Bauer.....	283
Cavernous Sinus Thrombophlebitis; W. P. Eagleton	719
Clinical Examination of Nervous System; G. H. Monrad-Krohn.....	283
Comparative Psychology and Hygiene of Overweight Child; K. McHale.....	867
Dementia Rachitica; Studien über die sogenannte zerebrale Komponente der Rachitis; K. Hulschinsky.....	865
Der Heutige Stand der Behandlung der Progressiven Paralyse (The Present Status of the Treatment of General Paralysis); L. Benedek.....	147
Diagnostische und Therapeutische Irrtümer und Deren Verhütung. Innere Medizin; Edited by J. Schwalbe. Volume II; Krankheiten des Rückenmarks und der Peripherischen Nerven; R. Cassirer. Reedited by R. Henneberg.	722
Die Peripherischen Lähmungen, Diagnostik, Untersuchungstechnik, Prognostik und Therapie; T. Cohn.....	721
Epilepsie — vergleichende Pathogenese, Erscheinungen Behandlung; L. J. J. Muskens	714
Epilepsy: A Functional Mental Illness; R. G. Rows and W. E. Bond.....	280

INDEX TO VOLUME 17

	PAGE		PAGE
Book Reviews—Continued		Brain—Continued	
Handbuch der Neurologie des Ohres; G. Alexander, O. Marburg & H. Brunner	281	abscess, traumatic internal hemorrhagic pachymeningitis, with tumorlike clot	700, 701
Herzkrankheiten und Psychosen, eine klinische Studie; E. Leyser	568	additional evidence favoring normal existence of lateral apertures of fourth ventricle in man	126
"Kinésie paradoxale" des Parkinsoniens. Contribution à l'étude du mécanisme de la motilité volontaire; J. Jarkowski.	567	atrophy, circumscribed cortical (Pick's disease); anatomic contribution	530
La Syphilis Nerveuse; A. Sézary	717	comparative anatomy, nucleus mesencephalicus trigemini	129
Leitfaden der Neurologischen Diagnostik; K. Singer	426	comparative anatomy, retina and lateral geniculate body in Tupaia, Tarsius, Nycticebus and Hapale	116
Les Affections de la Colonne Vertébrale; A. Léri	282	cortex, method of measuring cerebral cortical surfaces	*193
Les Troubles Mentaux Dans Les Tumeurs Cérébrales; H. Baruk	422	cortex, striate-like disease of, in arteriosclerosis	107
Manual of Normal Physical Signs; W. B. Blanton	284	effect of suprarenin and thyroxin on water absorption by brain tissue	832
Medizinische Psychologie; E. Kretschmer	279	encephalography and estimation of passage and resorption of fluid in estimation of so-called commotion neuroses	817
Nervous and Mental Disorders from Birth Through Adolescence; B. Sachs and L. Hausman	274	encephalography and myelography	675
Neurologie. Les Consultations Journalières; A. Tournay	281	hemorrhage, extradural, and fracture of skull, with symptoms of hypotension	399
Outline of Abnormal Psychology; W. McDougall	142	hemorrhage, pathogenesis of; case of aneurysm of posterior communicating artery	*770
Précis de Séméiologie Neuro-Psychiatrique à l'Usage des Practiciens; A. Rouquier	720	histopathology of basal ganglia, corpus callosum and dentate nucleus in 4 cases of general paralysis	*214
Psychic Residuals of Epidemic Encephalitis in Children, Especially the Further Development of These Cases; R. Thiele	148	influence of cerebrospinal fluid on physiologic and pathologic processes in; recent work of Pawlow and Speransky	*514
Psychologic Studies on the Olfactory Sense; H. Henning	145	injury, ultimate result in severe cranio-cerebral injury	565
Speech Training for Children; M. G. Blanton and S. Blanton	275	lesions, arteriosclerotic dementia with gynecomastia; softening of striatum without choreo-athetotic symptoms	841
Stammering and Its Treatment; S. D. Robbins	284	lesions, associated with rotated or "cerebellar" posture of head	117
Technique de la Réaction du Benjoin Colloidal; G. Guillain, G. Laroche and P. Léchelle	721	lesions, clinical and pathological résumé of combined disease of pyramidal and extrapyramidal systems, with especial reference to new syndrome	671
The Human Cerebrospinal Fluid; Association for Research in Nervous and Mental Disease	570	lesions, disturbances of memory in diseases of frontal lobe and insula	103
The Internal Secretions of the Sex Glands, The Problem of the "Puberty Gland"; A. Lipschutz	424	lesions, minute vascular cortical lesions; formation, appearance and clinical significance	559
The Methods of Research in Conditioned Reflexes; N. A. Podkopaev	135	lesions, myoclonic syndrome of tegmentum pontis	128
The Surgical Treatment of Goiter; W. Bartlett	569	lesions, nervous symptoms of insulin hypoglycemia in rabbits contrasted with convulsions induced by cocaine	119
The White Spots of Epilepsy; E. A. Tracy	869	lesions, pontile syndrome with localized myoclonia and disorders of sleep	129
Traitement des Maladies Mentales par les Chocs; C. Pascal and J. Davesne	868	lesions, subarachnoid block particularly of cerebellomedullary cistern	533
Twenty Years' Experience of Objective Study of the Highest Nervous Activity of Animals; I. P. Pawlow	135	leukemia and central nervous system	550
Ueber das Morphologische Wesen und die Histopathologie der Hereditär-Systematischen Nervenkrankheiten; K. Schaffer	720	localization, attempt to identify central cells mediating kinesthetic sense in extrinsic eye muscles, *285; (correction)	513
Ueber die Agraphie und Ihre Lokal Diagnostischen Beziehungen; G. Herrmann and O. Pötzl	278	localization, cerebral function in learning; relation between cerebral mass, learning and retention	674
Ueber die Verwahrlosung der Jugendlichen; W. Runge and O. Rehm	277	localization, demonstration of decorticated cats	407
Vom Liebes und Sexualleben; L. Frank	870	localization, discovery of visual center; answer to objection of Lenz on work of Henschen	677
Brain: See also Cerebellum; Corpus Striatum; Geniculate Body; Thalamus, etc.		localization, disturbances of memory in diseases of frontal lobe and insula	103
abnormal deposits of iron in brain in Parkinsonism with special reference to its localization	399	localization, erectness in man	*1
abscess, frontal sinusitis, osteomyelitis of skull, meningitis, lumbar puncture and sudden death	700, 701		

INDEX TO VOLUME 17

	PAGE		PAGE
Brain—Continued		Cerebellum, lesions, pontile syndrome with localized myoclonia and disorders of sleep	129
localization, function of right hemisphere of brain in relation to left in speech, music and calculation.....	111	method of measuring cerebellar cortical surfaces	*193
localization, loss of righting reflexes in man; with special reference to paralysis agitans	*12	of reptiles; lizards and snake.....	828
localization, peculiar symmetrical motor disturbance of eyes (syndrome of internuclear interruption of posterior longitudinal bundle)	670	subarachnoid block particularly of cerebellomedullary cistern	533
localization, postencephalitic respiratory syndromes; phenomenology and pathologic considerations	*627	superior cerebellothalamic syndrome....	840
localization, projection of retina in primary optic neuron in monkeys.....	108	tumor, incidence and process of calcification in glioma of brain.....	112
localization, studies in decerebration; integrated reflexes of brain stem.....	*18	tumor, metastatic; clinical study, with necropsy	*481
mental sequelae of carbon monoxide poisoning; autopsy in 2 cases.....	552	tumor, somnolence; its occurrence and significance in cerebral neoplasms....	*44
metastatic meningo-encephalic carcinomatosis without tumefaction.....	*466	tumor, tuberculoma, incidence of, among intracranial tumors; surgical aspects..	*57
of prehistoric man; study of psychologic foundations of human progress.....	*723	Cerebrospinal Fluid, encephalography and estimation of passage and resorption of fluid in estimation of so-called commotion neuroses	817
physiology, technic for obtaining blood from internal jugular vein and internal carotid artery.....	*807	in cerebrospinal syphilis.....	813
puncture	100	medullary compression in mid-thoracic region with syndrome of Froin in syphilitic person	837
regional distribution of arteriosclerotic changes in	544	nature of	*317
total and partial lack of corpus callosum; nature of longitudinal callosal bundle.	821	"passage over the fluid" (amplification and defense of my theory of metastasyphilis)	810
tumor, aneurysm of internal carotid simulating cerebral tumor.....	131	permeability changes in mental and nervous diseases	673
tumor, angle tumor; operation and recovery	132	recent work of Pawlow and his pupils; epilepsy and cerebrospinal fluid (Speransky)	*514
tumor, incidence and process of calcification in gliomas of brain.....	112	subarachnoid block particularly of cerebellomedullary cistern	533
tumor, mechanism of compression in case of tumor of cerebellopontile angle; studied by serial sections of brain.....	*609	Chloretone, reactions of Amblyostoma embryos following prolonged treatment with	267
tumor, metastatic; clinical study of 12 cases with necropsy.....	*481	Cholesteatoma, angle tumor with operation and recovery	132
tumor, metastatic meningo-encephalic carcinomatosis without tumefaction.....	*466	Chordoma, sacrococcygeal	397
tumor, multiple dural neoplasms; case....	691	Chorea, clinical and pathological résumé of combined disease of pyramidal and extrapyramidal systems, with especial reference to new syndrome.....	671
tumor, multiple tumors of lateral ventricle (tuberous sclerosis).....	129	hemichorea, case, followed by necropsy; motor function of striate body.....	130
tumor, opaque to roentgen rays, with Jacksonian epilepsy	406	hemichorea of thalamic origin.....	840
tumor, primarily pineal and primarily pontile; differential diagnosis.....	*179	Claudication, cerebral aneurysm with rupture and intermittent lameness presumably related to stenosis of isthmus....	*303
tumor, roentgenotherapy of intracranial and intraspinal tumors.....	133	Cocaine, convulsions induced by, contrasted with symptoms of insulin hypoglycemia in rabbits	119
tumor, somnolence; its occurrence and significance in cerebral neoplasms....	*44	Colon, paralysis of, and high lesions of spinal cord due to sympathetic hyperfunction	273
tumor, tuberculoma en plaque.....	*231	Constitution, types, measurements of interpupillary distances	269
tumor, tuberculoma, incidence of, among intracranial tumors; surgical aspects..	*57	types, physique of mentally normal and abnormal criminals	266
British-American Neurological Meeting....	809	types, physique of normal persons.....	264
Brock, S.: Loss of righting reflex in man; with special reference to paralysis agitans	*12	types, problem of the schizoid.....	261
Calculation, function of right hemisphere of brain in relation to left in.....	111	Contracture, intense, of extrapyramidal type, with amyotrophic lateral sclerosis; encephalitic etiology.....	405
Cancer, metastatic meningo-encephalic carcinomatosis without tumefaction.....	*466	Convulsions, experimental investigations on their bearing on epilepsy.....	684
Carbon monoxide poisoning, mental sequelae of; autopsy.....	552	hypoglycemia and	121
Cauda Equina: See Spinal Cord		Cooling Tests, local, in normal persons; their modifications in pathologic states and by cardiac poisons.....	270
Causalgia of upper limb, posterior rhizotomy for; sensory and motor disorders after operation	134	Cornwall, L. H.: Metastatic meningo-encephalic carcinomatosis without tumefaction	*466
Central Neuropsychiatric Association meeting	99		

INDEX TO VOLUME 17

	PAGE		PAGE
Corpus Striatum, arteriosclerotic dementia with gynecomastia; softening of striatum without choreo-athetotic symptoms	841	Electric shock followed by persistent choreo-athetosis	127
motor function of striate body; case of hemichorea followed by necropsy.....	130	Embryology, branchiomeres and theory of head segmentation	126
Cranimetry, measurements of interpupillary distances	269	development of motility and behavior reactions in toadfish (<i>Opsanus Tau</i>)....	537
Cranium, development, brachiomeres and theory of head segmentation.....	126	effect of reduction of skin and of muscle on development of spinal ganglia.....	397
fracture of skull and extradural hemorrhage with symptoms of hypotension..	399	experiments on development of ear of <i>Amblystoma punctatum</i>	832
injury, displacement of pineal gland in head injury	690	melanophores in developing and adult fundulus	120
injury, ultimate result in severe cranio-cerebral injury	565	primitive lines of <i>Amblystoma jeffersonianum</i>	401
pressure, influence of decompression operations on experimentally produced papilledema	118	reactions of <i>Amblystoma</i> embryos following prolonged treatment with chlorotone	267
Criminals, mentally normal and abnormal, physique of	266	Emotion and incidence of disease.....	269
Cyanide, mercuric, intravenous use of, in terminal general paralysis.....*	804	Encephalitis acutissima	827
Davis, L.: Studies in decerebration; integrated reflexes of brain stem.....	*18	Encephalitis, Epidemic, blood sugar studies in	400
Deafness, interpretation of speech by tactual and visual impression.....	125	cervical pseudospondylosis in; localized Parkinsonian hypertonia	404
Decerebration: See also Decortication studies in; integrated reflexes of brain stem	*18	etiology of	265
Decortication, and conditioned reflexes....	520	irresistible mastication during.....*	239
demonstration of decorticated cats.....	407	sequels, contrasted with rôle of syphilis in parkinsonian syndrome.....*	662
Delinquency, psychiatric examination of child	115	sequels, diaphragmatic tic, relieved by section of phrenic nerves.....	690
psychiatric problems in care and management of delinquent children in State of New York.....	123	sequels, myasthenic syndrome following..	561
Dementia, arteriosclerotic, with gynecomastia; softening of striatum without choreo-athetotic symptoms	841	sequels, periodic ocular spasm in post-encephalitic parkinsonism	260
Dementia Praecox, Bergson's conceptions as applied to psychopathology.....	680	sequels, postencephalitic respiratory syndromes	*627
brief survey of American Psychiatry, 1914-1924	105	sequels, remote	836
clinical consideration of special types of feeble-mindedness	708	sequels, sodium iodide therapy in post-encephalitic psychosis; treatment of 16 cases	113
influenza and schizophrenia; analysis of post-influenzal dementia praecox as of 1918 and 5 years later.....	689	sequels, tonic crises of upward conjugate deviation of eyes of encephalitic origin	835
investigations of metabolism in manic and depressive states; changes in calcium and potassium content of whole blood	828	therapy, hyoscine in postencephalitis lethargica	398
lesions of sympathetic cells in chronic psychoses	272	Endocrine glands, muscular dystrophies, and sympathetic system.....	549
physique of mentally normal and abnormal criminals	266	Endothelioma, multiple dural neoplasms; case	691
problem of the schizoid.....	261	primary tumors of optic nerve and of chiasma	551
sudorific reaction in certain types of psychosis	402	Epilepsy, central nervous disturbances manifested by epileptic fit.....	402
Developmental defect in sisters with myasthenic changes; 2 cases.....	556	experimental investigations on convulsions; their bearing on epilepsy.....	684
Diaphragmatic tic, following encephalitis, relieved by section of phrenic nerves..	690	heart cramp in spasmodophilia; problem of tone and question of epilepsy.....	681
Ditto, M. W.: Method of measuring cerebral and cerebellar cortical surfaces..*	193	Jacksonian, associated with tumor opaque to roentgen rays.....	406
Duodenum, ulcer: See Peptic Ulcer		Jacksonian, with multiple neurofibromas, true angioneurofibroma of acoustic nerve and osteoporosis.....	395
Dysphagia, hysterical	118	preparoxysmal vessel changes following experimentally produced hyperventilation in dog.....	546
Dystrophies, muscular, sympathetic system and endocrine glands.....	549	protein sensitization in; study of 1,000 cases and 100 normal controls.....*	427
Ear: See also Vestibular Apparatus experiments on development of ear of <i>Amblystoma punctatum</i>	832	public and private provision for epileptics	825
Edema, angioneurotic; case with necropsy findings	126	recent work of Pawlow and Speransky..*	514
		time relations of various phenomena to that of conjugate deviation in epileptic attack	259
		treatment by injection of phenylethylmalonylurea in cisterna magna.....	132
		vasomotor spasms giving rise to epileptic phenomena; case	857
		Erectness in man.....	*1

INDEX TO VOLUME 17

	PAGE		PAGE
Extremities, innervation, effect of hetero- plastic grafts of spinal cord on devel- opment of limb of Amblystoma.....	122	Hepato-Lenticular Degeneration: See Wil- son's Disease	
Eyes, attempt to identify central cells medi- ating kinesthetic sense in extrinsic eye muscles, *285; (correction).....	513	Herpes, zoster of quadrigeminal nerve....	562
peculiar symmetrical motor disturbance of, (syndrome of internuclear interrup- tion of posterior longitudinal bundle)...	670	Hesketh, F. E.: Minimum scheme for study of morphologic constitution in psychiatry; with remarks on anthro- pometric technic	*93
periodic ocular spasm in postencephalitic parkinsonism	260	Hip, sciatic paralysis following traumatic dislocation of	128
time relations of various phenomena to that of conjugate deviation in epileptic attack	259	Hirsch, H. L.: Technic for obtaining blood from internal jugular vein and internal carotid artery	*807
tonic crises of upward conjugate devia- tion of eyes of encephalitis origin....	835	Horrax, G.: Differential diagnosis of tumors primarily pineal and primarily pontile	*179
Feeble-mindedness, clinical consideration of special types of.....	708	Houlton, T. L.: General paralysis; histo- pathology of basal ganglia, corpus cal- losum and dentate nucleus in 4 cases.*214	
Feinier, L.: Somnolence; its occurrence and significance in cerebral neoplasms. *	44	Hydrocephalus, internal, and hypopitui- tarism	*332
Fink, E. B.: Internal hydrocephalus and hypopituitarism	*332	Hyoscine hydrobromide, action of, on de- velopment of nervous system of Am- blystoma	685
Fox, H.: Pathologic anatomy in hypophysis cerebri in wild animals.....*	471	in postencephalitis lethargica.....	398
Fremont-Smith, F.: Nature of cerebro- spinal fluid	*317	Hysteria, biochemic factor of autointoxica- tion in causation of.....	267
Froin's Syndrome: See under Cerebro- spinal Fluid		Idiocy, family amaurotic, infantile type; 2 cases	*616
Ganglia, basal, histopathology of, in 4 cases of general paralysis.....*	214	Influenza and schizophrenia; analysis of post-influenzal dementia praecox as of 1918 and 5 years later.....	689
Nissl granules of primary afferent neu- rons	823	Instinct, study in; tarantula versus taran- tula-hawk	268
Ganglioglioma	403	Insulin, action of, in vagotonia (pancreas and vagal tonus).....	271
Gantt, W. H.: Recent work of Pawlow and his pupils; conditioned reflexes; sympathetic nervous system (Orbeli); epilepsy and cerebrospinal fluid (Sper- ansky)	*514	hypoglycemia in rabbits, nervous symp- toms of, contrasted with convulsions induced by cocaine.....	119
Genetic analysis of temperament of rats. *	125	Iodide therapy in postencephalitic psy- chosis; treatment of 16 cases.....	113
Geniculate Body, projection of retina in primary optic neuron in monkeys....	108	Iodized Oil (lipiodol), 40 per cent, in in- verted position	132
retina and lateral geniculate body in Tu- paia, Tarsius, Nycticebus and Hapale. *	116	Iron, abnormal deposits of, in brain in Parkinsonism with special reference to its localization.....	399
Germanin: See Sclerosis, multiple		Irritability, comparative, of men and women	831
Glioma of brain, incidence and process of calcification in	112	Jelliffe, S. E.: Postencephalitic respiratory syndromes; phenomenology and pathol- ogic considerations	*627
primary tumors of optic nerve and of chiasma; case	551	Jurisprudence, medical expert in courts....	848
Globus, J. H.: Metastatic tumors of brain; clinical study of 12 cases with necropsy*	481	Keschner, M.: Myasthenia gravis.....*	337
Goodhart, S. P.: Infantile type of family amaurotic idiocy; report of 2 cases...*	616	Kinesthesia, attempt to identify central cells mediating kinesthetic sense in ex- trinsic eye muscles, *285; (correction) *	513
Growth, rôle of thyroid apparatus in solids- water differentiation of central nervous system during	818	Knee, tabetic arthropathies and intraspinal treatment with bismuth.....	841
Gynecomastia, arteriosclerotic dementia with	841	Knox, L. C.: Tuberculoma en plaque....*	231
Halloran, R. D.: Technic for obtaining blood from internal jugular vein and internal carotid artery.....*	807	Kraus, W. M.: Erectness in man..... *	1
Hallucinations, Lilliputian, affective states in	400	Method of measuring cerebral and cere- bellar cortical surfaces.....*	193
of vision of movement, causes of.....	396	Labor, sciatic paralysis following dystocia..	127
Hassin, G. B.: Pathogenesis of cerebral hemorrhage; case of aneurysm of pos- terior communicating artery.....*	770	Lead palsy; experimental studies.....*	444
Heart cramp in spasmophilia; problem of tone and question of epilepsy.....	681	Learning, studies of cerebral function in; relation between cerebral mass, learn- ing and retention	674
Hemiplegia, aneurysm of internal carotid simulating cerebral tumor.....	131	Leiner, J. H.: Infantile type of family amaurotic idiocy; report of 2 cases..*	616
motor function of striate body; case of hemichorea followed by necropsy....	130	Length, correlations and variability of cen- tral nervous system and body size of albino rat	685

INDEX TO VOLUME 17

	PAGE		PAGE
Leprosy, experimental investigation of peripheral nerve changes in.....	822	Music, function of right hemisphere of brain in relation to left in.....	111
Leukemia and central nervous system.....	550	Myasthenia, developmental defect in sisters with myasthenic changes; 2 cases.....	556
Lipiodol: See Iodized Oil		gravis	*337
Locomotion, in <i>Amoeba proteus</i> , effects of mechanical shock on.....	688	gravis, myasthenic syndrome following encephalitis; case	561
Lung, involvement of central nervous system secondary to primary carcinoma of	*198	Myerson, A.: Technic for obtaining blood from internal jugular vein and internal carotid artery	*807
McKendree, C. A.: Somnolence; its occurrence and significance in cerebral neoplasms	*44	Myoclonia, localized, and disorders of sleep with pontile syndrome.....	129
McLean, A. J.: Attempt to identify central cells mediating kinesthetic sense in extrinsic eye muscle, *285; (correction)	513	myoclonic syndrome of tegmentum pontis	128
Malaria, artificially induced, the Whittingham (W.) strain of; observations made during treatment of general paralysis and tabes dorsalis.....	401	Nerve, acoustic, mechanism of compression in case of tumor of cerebellopontile angle; studied by serial sections of brain	*609
therapeutic: See also Paralysis, General		acoustic, true angioneurofibroma of, with Jacksonian epilepsy, osteoporosis, and multiple neurofibromas	395
Mastication, irresistible, during epidemic encephalitis	*239	cranial, branchiomeres and theory of head segmentation	126
Medical expert in courts.....	848	optic, primary tumors of optic nerve and of chiasma; case.....	551
Melanophore activity in <i>Fundulus</i> , control of	269	phrenic, injury, paralysis of right diaphragm in new-born due to.....	688
in developing and adult <i>Fundulus</i>	120	phrenic, section of, for relief of diaphragmatic tic, following encephalitis.....	690
Memory, disturbances of, in diseases of frontal lobe and insula.....	103	trigeminal, nucleus mesencephalicus trigemini	129
Meninges, experimental investigations on penetrability of mercury into central nervous system	688	trigeminal, of cat, distribution and probable significance of unmyelinated nerve fibers in	831
permeability changes in mental and nervous diseases	673	tumors and pigmented moles.....	535
subarachnoid block particularly of cerebellomedullary cistern	533	vagus, physiologic ideas on vagotonia (pancreas and vagal tonus).....	271
Meningitis: See also Pachymeningitis		Nervous System, comparative anatomy, action of hyoscine hydrobromide on development of nervous system of <i>Amblystoma</i> ; experimental study.....	685
<i>Cysticercus</i>	130	comparative anatomy, control of melanophore activity in <i>Fundulus</i>	269
pneumococcus and streptococcus, chemotherapy and serum therapy of; résumé of present status of treatment of septic meningitis, with recommendation of method	249	comparative anatomy, correlations and variability of central nervous system and body size of albino rat.....	685
tuberculous, tuberculoma en plaque in..	*231	comparative anatomy, effect of reduction of skin and of muscle on development of spinal ganglia.....	397
Mental health in children.....	123	comparative anatomy, giant nerve fibers of earthworm	398
hygiene, relation of state hospital clinics to mental health of school children....	120	comparative anatomy, innervation and nerve terminations of reptilian lung..	400
Mercury, experimental investigations on penetrability of mercury into central nervous system	688	comparative anatomy, primitive line of <i>Amblystoma jeffersonianum</i>	401
intravenous use of mercuric cyanide in terminal general paralysis.....	*804	disease, neuromuscular dysfunction of bladder as cause of chronic pyelitis in childhood	689
Mesoglia: See Oligodendroglia		disease, permeability changes in.....	673
Metabolism, in manic and depressive states	828	in typhus	545
Mind, development and evolution of; biological versus psychosocial interpretations of ontophylogenetic parallelism..	547	involvement of, secondary to primary carcinoma of lung.....	*198
Missouri-Kansas Neuropsychiatric Society, meeting of	809	perimetry in diagnosis of cerebrospinal lesions	702
Mobility, in decorticated cats.....	407	rôle of thyroid and parathyroid glands in growth of nervous system; rôle of thyroid apparatus in solids—water differentiation of central nervous system during growth	818
Moles: See Nevus		sympathetic, alleged stimulation of autonomic nervous system in arsphenamine reactions	682
Muscles, innervation, recent work of Pawlow and Orbeli; conditioned reflexes; sympathetic nervous system.....	*514	sympathetic, anatomy of, with reference to sympathectomy and ramisection... ..	541
skeletal, sympathetic innervation to....	683		
tonus, cervical pseudospondylosis in epidemic encephalitis; localized Parkinsonian hypertonia	404		
tonus, in skeletal muscles as related to sympathetic nervous system.....	124		
tonus, studies in reaction time.....	687		
tonus, sympathetic ramisection for relief of spasticity	678		

INDEX TO VOLUME 17

	PAGE
Nervous System—Continued	
sympathetic, clinical examination of; report before the seventh Réunion Neurologique	548
sympathetic, clinical examination of vegetative system	270
sympathetic, gastroduodenal ulcers and autonomic imbalance	*571
sympathetic, innervation to skeletal muscle	683
sympathetic, lesions of sympathetic cells in chronic psychoses	272
sympathetic, methods of examination and organic disease of; report before seventh Réunion Neurologique	381
sympathetic, muscular dystrophies, and endocrine glands	549
sympathetic, recent work of Pawlow and Orbeli; conditioned reflexes	*514
sympathetic, rôle of cells of medullary origin in development of sympathetic trunks	402
sympathetic, symptoms of juxtavertebral cervicothoracic tumors	271
sympathetic, tonus in skeletal muscles as related to sympathetic nervous system	124
Neuralgia, concept and nature of	256
Neurasthenia, condition reflexes and; recent work of Pawlow and his pupils	*514
Neuritis, multiple, acute polyneuritis with facial diplegia	*794
scorbutic, clinical features of	833
Neuroblastoma, three tumors arising from neuroblasts	265
Neurofibromatosis, multiple neurofibromas associated with true angioneurofibroma of acoustic nerve with Jacksonian epilepsy and osteoporosis	395
Neurons, primary afferent, Nissl granules of	823
Neuropsychiatric problem of U. S. Veterans' Bureau	412
Neuroses, changing manifestations of	692
compulsion, chronic systematizing	815
so-called commotion, encephalography and estimation of passage and resorption of fluid in estimation of	817
Neurosyphilis, cerebrospinal syphilis	813
chronic syphilis of central nervous system with particular reference to vascular syphilis	542
chronic vascular syphilis in central nervous system	548
intravenous use of mercuric cyanide in terminal general paralysis and	*804
"passage over the fluid" (amplification and defense of my theory of meta-syphilis)	810
pathogenesis of tabes dorsalis and	825
problems presented by general paresis and	819
rôle of syphilis in parkinsonian syndrome	*662
types of, in relation to treatment	538
Nevus, pigmented moles and nerve tumors	535
Nicotine, spinal cord of young rabbits born of females intoxicated by	133
Nystagmus, miner's; mental factor in	402
palatal, in myoclonic syndrome of tegmentum pontis	128
peculiar symmetrical motor disturbance of eyes (syndrome of internuclear interruption of posterior longitudinal bundle)	670

	PAGE
OBITUARIES:	
Dunlap, Charles Bates, 1862-1926	699
Kraepelin, Emil, 1856-1926	*246
Webber, Samuel Gilbert, 1838-1926	*377
Oligodendroglia, mucinoid degeneration of	705
platinum chloride method of W. Ford Robertson for "mesoglia"	420
Orthostasis and intravenous injection of atropine	272
Pachymeningitis, frontal sinusitis, osteomyelitis of skull, brain abscess, lumbar puncture and sudden death	700, 701
traumatic internal hemorrhagic, with tumor-like clot	700, 701
Pancreas, physiologic ideas on vagotonia (pancreas and vagal tonus)	271
Papilledema, experimentally produced, influence of decompression operations on	118
Paralysis, agitans, abnormal deposits of iron in brain in Parkinsonism with special reference to its localization	399
agitans, loss of righting reflex in man, with special reference to	*12
agitans, Parkinsonian syndrome with bilateral Babinski sign	129
agitans, Parkinson's "Essay on Shaking Palsy"	380
agitans, rôle of syphilis in parkinsonian syndrome	*662
agitans, therapy	705
facial diplegia, with acute polyneuritis	*794
lead palsy; experimental studies	*444
of right diaphragm in new-born due to phrenic nerve injury	688
pseudobulbar palsy	820
sciatic, following dystocia	127
sciatic, following traumatic dislocation of hip	128
Paralysis, General, histopathology of basal ganglia, corpus callosum and dentate nucleus in 4 cases	*214
hypertonia and contracture in, (striate syndrome)	127
problems presented by general paresis	819
rôle of syphilis in parkinsonian syndrome associated with	*662
serology of, in malaria treated cases	712
terminal, intravenous use of mercuric cyanide in	*804
treatment by malaria fever	403
treatment with the Whittingham (W.) strain of artificially induced malaria	401
with slow course	539
Paraplegia, Pott's disease and	130
rare case of medullary compression (projectile latent for 26 years)	134
Pardee, I.: Rôle of syphilis in parkinsonian syndrome	*662
Tuberculoma en plaque	*231
Parker, H. L.: Involvement of central nervous system secondary to primary carcinoma of lung	*198
Parkinson's "Essay on Shaking Palsy"	380
Patterson, H. A.: Protein sensitization in epilepsy; study of 1,000 cases and 100 normal controls	*427
Pellagra, microscopic changes in nerves in	262
neurological symptoms and findings in	711
Peptic Ulcer, gastroduodenal ulcers and autonomic imbalance	*571
Personality changes and upheavals arising out of sense of personal failure	830

INDEX TO VOLUME 17

	PAGE		PAGE
Personality—Continued		Psychoses—Continued	
psychopathic, brief survey of American psychiatry, 1914-1924	105	obsessions in relation to.....	833
Petry, H. K.: Intravenous use of mercuric cyanide in terminal general paralysis..*	804	personality changes and upheavals arising out of sense of personal failure.....	830
Phenobarbital, treatment of status epilepticus by injection of phenylethylmalonylurea in cisterna magna.....	132	postencephalitic, sodium iodide therapy in; treatment of 16 cases.....	113
Physiopathic disorders	272	relation of state hospital clinics to mental health of school children.....	120
Pick's Disease: See Brain, atrophy		Rohrschach test in relation to.....	703
Pineal Gland, differential diagnosis of tumors primarily pineal and primarily pontile	*179	sudorific reaction in certain types of....	402
displacement of, in head injury.....	690	survey of American psychiatry, 1914-1924	105
Pituitary, internal hydrocephalus and hypopituitarism	*332	what happens to patients with mental disease during first year of hospital life	116
pathologic anatomy in hypophysis cerebri in wild animals.....	*471	Pyelitis, chronic, in childhood, neuromuscular dysfunction of bladder as cause of	689
tumors, diagnosis and treatment of.....	131	Pyramidal Tract, clinical and pathological résumé of combined disease of pyramidal and extrapyramidal systems, with especial reference to new syndrome..	671
Pneumocephalus (intracranial pneumatocele or arocele)	263		
"Pneumorrhachis"	550	Ramisection, anatomy of sympathetic nervous system with reference to sympathetomy and ramisection.....	541
Pneumothorax, therapeutic, cervicothoracic sympathetic modifications during.....	272	sympathetic, for relief of spasticity....	678
Poliomyelitis, subacute anterior; necropsy. outbreak of, apparently milk borne.....	689	Raynaud's Disease, importance of arterial lesions in pathogenesis of.....	396
Pollock, L. J.: Studies in decerebration; integrated reflexes of brain stem.....	*18	Reaction Time, effects of mechanical shock on locomotion in Amoeba proteus....	688
Posture, erectness in man.....	*1	studies in	687
loss of righting reflex in man.....	*12	Reflexes, bilateral Babinski sign, with Parkinsonian syndrome	129
orthostasis and intravenous injection of atropine	272	conditioned; recent work of Pawlow and his pupils; sympathetic nervous system (Orbeli)	*514
rotated or "cerebellar" posture of head. 117		knee, comparison of irritability of men and women	831
Psychanalysis, as cultural factor.....	679	oculocardiac and solar, in clinical examination of vegetative system.....	270
in postencephalitic respiratory syndromes; phenomenology and pathologic considerations	*627	plantar, Babinski sign; its characteristics, mechanism and significance.....	834
logic of sublimation; criticism.....	124	postural, decerebrate rigidity of sloth....	824
psychiatric examination of child.....	115	postural, erectness in man.....	*1
psychiatry and psycho-analysis.....	686	postural, integrated reflexes of brain stem; studies in decerebration.....	*18
Psychiatry and psycho-analysis.....	686	postural, loss of righting reflex in man; with special reference to paralysis agitans	*12
American, brief survey of, 1914-1924....	105	postural, rotated or "cerebellar" posture of head	117
measurements of interpupillary distances	269	spinal automatic movements in tabetic patients	132
minimum scheme for study of morphologic constitution in; anthropometric technic	*93	Respiration, postencephalitic respiratory syndromes	*627
psychiatric problems in care and management of delinquent children in State of New York.....	123	relief of diaphragmatic tic, following encephalitis, by section of phrenic nerves	690
psychiatric social case-work, 1926 emphases in	829	Retina, and lateral geniculate body in Tupia, Tarsius, Nycticebus and Hapale. 116	
Psychology, development and evolution of mind; biological versus psychosocial interpretations of ontogenetic parallelism	547	projection of, in primary optic neuron in monkeys	108
psychological evaluation of suggestion and its use in medicine, with some experimental data	858	Reznikoff, P.: Lead studies; experimental studies of lead palsy.....	*444
Psychoses, Bergson's conceptions as applied to psychopathology	680	Rhizotomy, dorsal, sensory disorders after; Sherrington's law	839
care of mental patients pending commitment in New York State, facilities for children's unit at King's Park State Hospital	122	posterior, for causalgia of upper limb; sensory and motor disorders after operation	134
chronic, lesions of sympathetic cells in..	272	Rigidity, decerebrate, of sloth.....	824
clinical consideration of special types of feeble-mindedness	708	decerebrate, sympathetic ramisection for relief of spasticity.....	678
manic-depressive, in which no ammoniac auto-intoxication is found.....	268	Roentgenotherapy of intracranial and intraspinal tumors	133
mental factor in miners' nystagmus....	402	of pituitary tumors.....	131
metabolism in manic and depressive states; changes in calcium and potassium content of whole blood.....	828	Rohrschach Test in relation to psychoses...	703

INDEX TO VOLUME 17

	PAGE		PAGE
Sacrococcygeal chordoma	397	Speech, function of right hemisphere of brain in relation to left in.....	111
Sarcoma, pulsating sacral, after roentgenotherapy	133	interpretation of, by tactual and visual impression	125
sympathetic symptoms of juxtavertebral cervicothoracic tumors	271	Spinal Canal, encephalography and myelography	675
Schaller, W. F.: Mechanism of compression in case of tumor of cerebellopontile angle; studied by serial sections of brain	*609	pneumorrhachie	550
Schilder's Disease, new case of intracerebral sclerosis	128	roentgenography, with iodized oil, 40 per cent, in inverted position.....	132
Schizoid, problem of the.....	261	Spinal Cord, abscess; case with functional recovery after operation.....	826
Scleroderma; case	560	crural paraplegia due to external tumor in thoracic region; operation; recovery	838
Sclerosis, amyotrophic lateral, with intense contractures of extrapyramidal type; encephalitic etiology	405	form of anterior horn cells of vertebrates	*783
disseminated prognosis in.....	121	high cervical lesions in guise of combined system disease	842
intracerebral (Schilder's disease); new case	128	mechanism of compression in case of tumor of cerebellopontile angle; studied by serial sections of brain.....	*609
multiple, peculiar symmetrical motor disturbance of eyes.....	670	medullary compression after fracture of sixth cervical vertebra in case of spondylosis; improvement following operation	132
multiple, treatment, with "Bayer 205" (Germanin)	687	medullary compression in mid-thoracic region with syndrome of Froin in syphilitic person	837
multiple, vaccine therapy in.....	411	medullary compression (projectile latent for 26 years); case.....	134
(tuberous) multiple tumors of lateral ventricle	129	of young rabbits born of females intoxicated by nicotine.....	133
Scurvy, clinical features of scorbutic neuritis	833	transplantation, effect of heteroplastic grafts of spinal cord on development of limb of Amblystoma.....	122
Selinsky, H.: Metastatic tumors of brain; clinical study of 12 cases with necropsy	*481	tumor, adhesive spinal arachnoiditis simulating	*151
Shelden, W. D.: Neurologic complications associated with congenital stenosis of isthmus of aorta; case of cerebral aneurysm with rupture and case of intermittent lameness presumably related to stenosis of isthmus.....	*303	tumor, of cauda equina; 2 cases.....	110
Shock, mechanical, effects of, on locomotion in Amoeba proteus.....	688	tumor, roentgenotherapy of intraspinal tumors	133
Sinusitis, frontal, osteomyelitis of skull, brain abscess, meningitis, lumbar puncture and sudden death.....	700	Spine, cervical pseudospondylosis in epidemic encephalitis; localized Parkinsonian hypertonia	404
Sleep, disordered, and localized myoclonia with pontile syndrome.....	129	hemilaminectomy	845
narcolepsy; symptom complex; case in child	686	spondylosis, medullary compression after fracture of sixth cervical vertebra in case of; improvement following operation	132
somnolence; its occurrence and significance in cerebral neoplasms.....	*44	Spondylosis: See Spine	
Social case-work, psychiatric, 1926 emphases in	829	Stomach, cancer, metastatic meningo-encephalic carcinomatosis without tumefaction	*466
SOCIETY TRANSACTIONS:		ulcer: See Peptic Ulcer	
Boston Society of Psychiatry and Neurology	407, 705	Stookey, B.: Adhesive spinal arachnoiditis simulating spinal cord tumor.....	*151
Chicago Neurological Society.....	560, 700, 857	Strauss, I.: Myasthenia gravis.....	*337
Congress of Alienists and Neurologists of France and of French Speaking Countries	834	Sublimation, logic of; criticism.....	124
New York Neurological Society and the Section of Neurology and Psychiatry of New York Academy of Medicine	691, 842	Suggestion, psychological evaluation of, and its use in medicine, with some experimental data	858
Paris Neurological Society.....	127	Suprarenin, effect of, on water absorption by brain tissue.....	832
Philadelphia Neurological Society.....	552, 711	Sympathectomy, anatomy of sympathetic nervous system with reference to ramification and	541
Réunion Neurologique	270	Syphilis, diagnosis, medullary compression in mid-thoracic region with syndrome of Froin in syphilitic person.....	837
Scandinavian Neurologic Congress.....	273	Parkinsonian syndrome with bilateral Babinski sign and.....	129
Société de Neurologie de Paris.....	404, 835	Syringomyelia; high lesions of spinal cord and paralysis of colon due to sympathetic hyperfunction	273
Spasm, dysbasia lordotica (torsion spasm) treated with braces.....	132	operative treatment with improvement in 2 cases	132
vasomotor spasms giving rise to epileptic phenomena; case	857		
Spasmophilia, heart cramp in.....	681		

INDEX TO VOLUME 17

	PAGE		PAGE
Tabes Dorsalis, spinal automatic reflex movements in	132	Veterans' Bureau, United States, neuro-psychiatric problem of.....	412
pathogenesis	825	Viets, H. R.: Acute polyneuritis with facial diplegia	*794
tabetic arthropathies and intraspinal treatment with bismuth.....	841	Vision, discovery of visual center; answer to objection of Lenz on work of Henschen	677
treatment with Whittingham (W.) strain of artificially induced malaria.....	401	perimetry in diagnosis of cerebrosplinal lesions	702
Taylor, E. W.: Samuel Gilbert Webber, A.B., M.D., 1838-1926.....	*377	studies of cerebral function in learning; relation between cerebral mass, learning and retention.....	674
Thalamus, hemichorea of thalamic origin..	840	Visual System, projection of retina in primary optic neuron in monkeys.....	108
superior cerebellothalamic syndrome....	840		
Thermic Reactions, local cooling tests in normal persons; their modifications in pathologic states and by cardiac poisons	270	Ward, J. F.: Protein sensitization in epilepsy; study of 1,000 cases and 100 normal controls	*427
Thomas, E. W.: Gastroduodenal ulcers and autonomic imbalance	*571	Water, rôle of thyroid apparatus in solids-water differentiation of central nervous system during growth.....	818
Thorax, tumors, sympathetic symptoms of juxtavertebral cervicothoracic tumors..	271	absorption by brain tissue, effect of suprarenin and thyroxin on.....	832
Thyroid apparatus, studies on; rôle of thyroid and parathyroid glands in growth of central nervous system; rôle of thyroid apparatus in solids—water differentiation of central nervous system during growth	818	Wechsler, I. S.: Loss of righting reflex in man; with special reference to paralysis agitans	*12
extract, in local cooling tests in normal persons	270	Weight, correlations and variability of central nervous system and body size of albino rat	685
Thyroxin, effect of, on water absorption by brain tissue	832	Weil, A.: Form of anterior horn cells of vertebrates	*783
Tilney, F.: Brain of prehistoric man; study of psychologic foundations of human progress	*723	Wertheimer, F. I.: Minimum scheme for study of morphologic constitution in psychiatry; with remarks on anthropometric technic	*93
Tremor, action	684	Wilson's Disease, hepatolenticular degeneration	114
Tuberculoma en plaque.....	*231	Wolff, H. G.: Gastroduodenal ulcers and autonomic imbalance	*571
of brain; incidence among intracranial tumors and surgical aspects.....	*57	Woltman, H. W.: Neurologic complications associated with congenital stenosis of isthmus of aorta; case of cerebral aneurysm with rupture and case of intermittent lameness presumably related to stenosis of isthmus.....	*303
Tuberculosis, Pott's disease and paraplegia; study of sympathetic system.....	130		
Typhus, nervous system in.....	545	Zentay, P. J.: Irresistible mastication during epidemic encephalitis.....	*239
Van Wagenen, W. P.: Tuberculoma of brain; its incidence among intracranial tumors and its surgical aspects.....	*57		
Vein, internal jugular, technic for obtaining blood from.....	*807		
Vertebra: See Spine			
Vestibular Apparatus, peculiar symmetrical motor disturbance of eyes (syndrome of internuclear interruption of posterior longitudinal bundle).....	670
